Question No. 1

Given the code fragment:

```
protected void service(HttpServletRequest req, HttpServletResponse res)
    throws ServletException, IOException {
    PrintWriter out = res.getWriter();
    out.print("Service() method called.");

protected void doGet(HttpServletRequest req, HttpServletResponse res)
    throws ServletException, IOException {
    PrintWriter out = res.getWriter();
    out.print("Get() method called.");
```

What output will be returned when this servlet is called a GET request?

- A. Service() method called.
- B. Service() method called.Get() method called.
- C. An HTTP error
- D. GET() method called.

Answer: A

Question No. 2

A Persistence application locks entity x with a LockModeType.PESSIMISTIC_READ lock type. Which statement is true?

- A. LockModeType.PESSIMISTIC_READ is the synonym of LockModeType.READ
- B. This operation will force serialization among transactions attempting to read the entity data.
- C. This operation will result in a TransactionRolledbackException if the lock cannot be obtained.
- D. If the application updates the entity later, and the changes are flushed to the database, the lock will be converted to an exclusive lock.

Answer: B

Question No. 3

Which statement is true about Java methods that are exposed as Web Service operations by using JAX-WS API?

- A. The @WebResult annotation must exist.
- B. Method parameters and return types must be JAXB compatible.
- C. Method parameters must be declared by using @WebParam.
- D. The @WebMethod annotation must exist.

Answer: D

Question No. 4

Given:

```
@Path("Employees")
@Produces({MediaType.APPLICATION_JSON})
public class EmployeesResource {
    @Inject
    private EmployeeManager em;
    @GET
    public List<Employee> findAll() {
        return em.findAllEmployees();
    }
}
```

What will be the response to a HEAD request?

- **A.** The findAll() method will be called and the employee list will be returned.
- **B.** The findAll() method will be called and no employees will be returned.
- **C.** No method will be invoked and no error will be returned.
- **D.** No method will be invoked and a 404 error will be returned.

Answer: C

Question No. 5

You are building the User Preferences page of an application. A user can change values, such as his or her name, password, address, company, and so on. These values are sent to a CDI backing bean via AJAX when the user tabs out of each field. However, the values must be retained in the CDI bean and stored in the database only when the user clicks the Save button.

Which two scopes will allow your CDI bean to retain its state while the user is interacting with the User Preferences page? (Choose two.)

- **A.** Dependent
- **B.** View
- **C.** Session
- **D.** Request
- **E.** Application

Answer: C, D
